## Retractable Gear Attachment Systems

First engineered for SCUBA diving, the Gear Keeper is a rugged, retractable gear attachment system, designed to utilize and protect gear in **severe environments with maximum break strength and durability.**

The Gear Keeper is at the core of an extensive product line that boasts an impressive array of benefits and features: **a patented flushing system** that clears sand and debris from the unit, is **salt-water proof**, and will withstand **high-temperature** environments; **a patented Q/C Connector System** that provides quick and easy connection/disconnection of gear.

The RT3 series features **80# break-strength and high tensile Spectra/Nylon line.** The RT4 series features **60# break-strength, high-tensile Spectra/Nylon line** for maximum break strength and durability under the high line flexing conditions seen in key applications. The **New RT5 series Micro Gear Keeper** features a **40# break strength and Spectra/Nylon line.**

Gear Keeper's patented **360-degree Stainless Steel Rotating Belt Clip** allows the retractor to rotate during use, reducing tension and line wear, and is built tough to survive severe and moist environments. In addition, the exclusive interlock feature prevents the Gear Keeper from becoming dislodged.

Combined, all these features make this **one tough key retractor.**

The RT3 series is also available with a **New Clamp-on Belt Clip** (fits up to 2¼" belts) for high security, i.e. prison guards.

**Gear Keeper Key packages** are available in multiple retraction force options optimize the product for the number of keys used.

The **New RT5 Series Micro Gear Keeper** is the first **badge retractor** for high security environments with a spectra/nylon line and 40# break strength. The 360 degree rotating Spring Clip allows this Gear Keeper to be mounted anywhere and allows the unit to pivot in the direction of use. It's also available in multiple mounting options for key and gear applications.

**Grab your gear, use it, let it go —  
it retracts back every time!**

Gear Keeper makes whatever you're doing easier while preventing loss or damage to your valuable gear.
